PROCEEDINGS OF THE GOVERNING COUNCIL AT ITS SEVENTEENTH SESSION

Corrigendum

Page 29, after paragraph 67, insert the following four paragraphs and renumber accordingly

68. One representative stressed that CSD should assume the catalytic role of rationalizing and monitoring the provisions of Agenda 21, while empowering UNEP to assume functions, particularly in those areas of Agenda 21 for which there were currently no specific executing agencies, with particular reference to biodiversity and environmental accounting.

69. Some representatives said that UNEP must be closely involved, in support of CSD, in the coordination of environmental matters within the United Nations system. That should be done through the sustainable development coordination system of the ACC and the Inter-agency Committee on Sustainable Development.

70. Another representative said that it was vitally important that UNEP and CSD should work effectively together in a complementary fashion. CSD needed information firmly based on sound science. UNEP had a central role to play in providing it.

71. One other representative said there was a need for continuing and direct political involvement in setting directions and priorities for the Commission. The forthcoming meeting of the Commission should be result-oriented. CSD should receive and assess national sustainable development plans and reports from the United Nations agencies.

Page 31, after paragraph numbered 85, insert the following paragraph and renumber accordingly

90. Another said that the Convention on Biological Diversity was of special significance, since the wealth of diversity in his country was crucial to the tourism industry. His country was in the process of ratifying the Convention and he urged others to do so.

Corrigendum

1 *Chapter II, paragraphs 95-97*

For the existing text, *substitute*

95. The draft decision was adopted by consensus.

96. After the adoption of the decision, the representative of the United States sought clarification on the figures contained in paragraph 14. In response, the Deputy Executive Director said that the programme would be implemented at the $120 million level but, if resources become available, the higher figure would be used.

97. Following the statement by the Deputy Executive Director, the representative of the United States protested at the haste with which the decision had been adopted. The Fund Committee had done a serious job in preparing a figure based on projected resources. The United States did not agree with the figures contained in paragraph 14 of the decision.

2. Chapter III, page 42, paragraph 184 (see UNEP/GC.17/32/Corr.2, English only), line 3

For 17/1, 17/5 *read* 17/1, 17/2, 17/3, 17/4 and 17/5

3. *Chapter IV, page 44, paragraph 13, line 2*

For policy issues *read* the state of the environment

4. Chapter V, page 46, paragraph 13, line 2

For policy issues *read* coordination
